

THE *NEU* WAY TO LOWER YOUR CARBON FOOTPRINT

Certified Carbonfree® styles made with recycled material to reduce your environmental impact.

SHIFTING TO *NEUTRAL*

By using recycled content, we reduce our carbon footprint at the start of each design. We then measure the emissions generated throughout the products' lifecycle and neutralize the total impact by purchasing carbon offsets that remove the equivalent emissions elsewhere in the environment.

ABOUT OUR CARBON OFFSETS

We purchase offsets through Carbonfund.org, an esteemed leader in the fight against climate change who sources third-party, verified carbon reduction projects. Those projects may entail energy efficiency, renewable energy and forestry.

PROPELLING WIND ENERGY

Our initial carbon reduction project has installed wind turbines in India. The power generated replaces an equivalent amount of energy that would otherwise come from non-renewable sources.

C-FREE CARBON *NEUTRAL* STYLES

Port Authority® C-FREE™ Snag-Proof Polos & 1/4-Zip

- Carbon neutral
- 100% recycled polyester
- Snag-proof
- Moisture-wicking
- 4 colors
